# About Our Group

## About Us

Deorwine Infotech is a software consulting and product app development company based in India. We specialize in delivering solutions and products in customer application development, business process development; Web based applications with success of delivering high standard of services to much different organization for the past 6 years.

## WHO WE ARE?

Focusing on innovation and targeting customers growth we had an opportunity to work with many startups in countries like USA, UK, Mexico, Dominican Republic and India. We have mainly worked on developing different products ranging from customized enterprise solution, business process automation, web based work flow management, e-commerce & web based CMS and website maintenance for most of our clients.

We mainly focus on leveraging clients requirements, having clients in-depth requirement analysis, understanding their business needs and providing them a customized cost effective solution catering to their all business requirements. Software Outsourcing and Offshore Programming at Deorwine Infotech safeguards the client's intellectual property, proprietary software and new development specifications with very high levels of security. Clients retain full ownership of all intellectual property rights and software source code at the completion of the project.
